SCHEDULE IRREGULARITY (IROPS)

American has an automated system for rebooking customers whose flight is cancelled or who will have an “invalid connection” due to a delay that may occur up to 72 hours prior to the schedule departure. This process is usually done within 15 minutes of the delay or cancellation being posted for the flight, but may take longer during larger scale disruptions. Examples - mechanical, ATC (Air Traffic Control), crew legality, weather, etc.

Tickets Validated on 037

Schedule Irregularity (IROPS) which occur on 037 tickets will follow American schedule irregularity (IROPS) procedures as outlined on this content page.

<table>
<thead>
<tr>
<th>If the Schedule Irregularity (IROPS) occurs:</th>
<th>AA Reaccommodation System will rebook new flight:</th>
</tr>
</thead>
</table>
| From 72 hours to 25 hours prior to scheduled departure | - Will revalidate AA/001 ticket for those itineraries that qualify. Agency retains control of original ticket and PNR.  
- AA will not reissue until within 24 hours from the new flight departure to allow the agency to handle their customer. |
| Within 24 hours prior to scheduled departure | - AA will reissue the customer’s AA/001 or US/037 ticket to an AA/001 INVOL if the new flight schedule departure is within 24 hours.  
- Some tickets may be valid for revalidation. |
